DETAILED ACTION

Response to Amendment

The applicant(s) response filed on July 28, 2009 has been fully considered and made of record.

Election/Restrictions

Claims 53 through 393 remain as withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made *without traverse* in the reply filed on February 2, 2005.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 29 through 52 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The specification and drawings, as originally filed, do not provide any written description for the claim limitations of "prior to constructing...with the texture" (lines 4-6 of Claim 29), as well as any of the limitations recited in dependent Claims 30 through 32.

Art Unit: 3729

The applicant(s) have not pointed out where this new claim is supported, nor does there appear to be a written description for the above claims limitations. *Hyatt v. Dudas*, 492 F.3d 1365, 1370, 83 USPQ2d 1373, 1376 (Fed. Cir. 2007). See MPEP § 2163.04 (I)(B). It is noted that the above claims limitations were not filed originally with the application, but were filed in a later amendment on April 2, 2002.

Response to Arguments

The applicant(s) arguments filed on July 28, 2009 have been fully considered but they are not persuasive.

It is noted the incorporation by reference of application serial no. 07/963,346 was not filed originally with the instant application, but was later filed in a subsequent amendment filed on April 2, 2002. Furthermore, the applicant(s) have not disputed the case law above. Accordingly, the 112, first paragraph rejections above are maintained.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 3729

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
